PRICE TWO CENTS

A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

DR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold at all druggists under a positive guarantee, first bottle refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

MANY UTTERLY FALSE RUMORS

Washington Kept in a State of Ex-
citement Over Them.

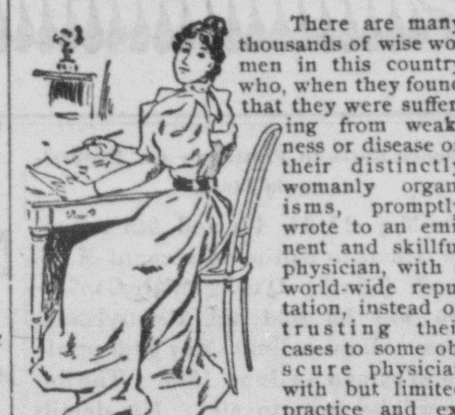

Captain Sampson Notifies the Navy Department of the Bombardment of Matanzas—European Grows Over Prospective Blockading of the Philippines Regarded as Harmless—Portugal's Neutrality Decree and Its Conditions Regarding Stay of Belligerent Ships in the Harbors of That Country—Movement of Troops at Chickamauga—War and Naval Bills.

Washington, April 30.—General Miles and his assistants were in conference at various times during yesterday respecting military operations that are to be undertaken in the occupation of Cuba. They all maintain the strictest reticence concerning the result of these deliberations and have adopted the policy of making nothing public regarding them, even the regular army movements are not divulged and none of the officials would confirm the reports published that the infantry regiments at New Orleans and some of the troops at Chickamauga are to proceed without delay to Tampa. General Shafter, who commands the brigade at New Orleans, left last night for that place accompanied by his adjutant, Colonel Babcock. The Cuban representatives in Washington were at General Miles' headquarters and were consulted in regard to various steps which would arise in connection with the co-operation of the United States troops with the insurgent forces in Cuba.

The war department, it is expected, will endeavor to secure additional ships for transports, but is said none were acquired today. The capacity of those obtained is not adequate for the number of men which, it is reported, is to embark on the expedition to one of the Cuban ports, and which, it is believed, will be sent in a very short time. The commissary department has depots of supplies at New Orleans, Mobile, Tampa and Chickamauga, adequate, it is said, for the immediate means of the service.

FALSE RUMORS.

There Were Many of Them at the Nation's Capital.
Washington, April 30.—A day of alarming rumors, running all the way from the blowing up of a big monitor to the detection and punishment of traitors, was yesterday, but fortunately all of them turned out, on inquiry, to be without foundation. Actual events of

There are many thousands of wise women in this country who, when they found that they were suffering from weakness or disease of their distinctively womanly organs, promptly wrote to an eminent and skillful physician, with a world-wide reputation, instead of trusting their cases to some obscure physician. The chances are that an obscure physician of small practice will not diagnose troubles of this nature properly. If he does, he will insist on the obnoxious examinations and local treatment from which every sensitive, modest woman shrinks. The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and makes baby's coming easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. Over ninety thousand women have testified to its marvelous merits. Medicine dealers sell it. It is a druggist's business to give you, not to tell you, what you want. Any sitting woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By enclosing 21-cent stamps in her letter, to cover cost of mailing only, she may secure a paper-covered copy of the "People's Guide to Health." Address: Dr. R. V. Pierce, Buffalo, N. Y.

importance were few in number. The news of most interest was the departure from Cape Verde of the Spanish fleet, the stay of which at St. Vincent has been a source of anxiety on the part of the officials here, because it seems to indicate the sympathy of Portugal for Spain might lead her to wink at a violation of neutrality laws in favor of Spain. Late in the afternoon a cablegram came to the State department from Cape Verde, announcing that four battleships and three torpedo-boats had started north and some of the transports of Cuba, and that the northern fleet returned shortly, having been in collision.

Captain Sampson sent a telegram relative to the firing at the Matanzas forts, but it was disappointingly lacking in detail, but the few words contained in the dispatch went to confirm the official view that the affair was nothing more than a naval reconnaissance.

A large number of callers are bringing forward candidates for the many plans within the gift of the president and Secretary Alger in the shape of appointments to grades above regimental in the army. General Lee and General Dodge spent a good part of the day in conference with the officials, giving color to the reports that they are among those selected for appointment as major generals.

The announcement that the State of Texas, laden with supplies for the reconcentrados is destined for Sagua, has led to the surmise that it is probably this port instead of Matanzas which has been selected for the landing place of the first attack of the United States.

Regarding the harmless growths that appear in the European papers, and threats to interfere to prevent the United States forces from blockading the Philippines, it may be stated that this was fully expected. During the civil war there were a great many attempts on the part of European nations to disregard our blockade and threats of interference, all of which came to naught from the firm attitude assumed by the secretary of State. In the present case the conditions of the Cuban blockade are much more liberal towards the powers than ever imposed before.

PORTUGAL'S DECREE.

Belligerents Will Be Permitted to Make Short Stops.

Washington, April 30.—Viscount De Santo Thirso, the Portuguese minister, looked over the cable dispatch from Lisbon giving the substance of the neutrality decree gazetted there, and said it was evidently accurate and covered the entire subject. The viscount says that article 8, which permits belligerents to make a short stop at Portuguese ports probably will be better understood by saying that belligerents will not be permitted to make long stays at Portuguese ports. In this connection the minister drew attention to the privileges permitted when warships of both belligerent nations were in the same port.

In that case, if the warship of one power leaves port, the warship of the other power cannot leave in pursuit within 24 hours, that much time being allowed the departing ship to go on her way without molestation. Portugal has

LANDING OF MARINES.
been very insistent upon this particular rule, and notable instance of it occurred when the famous confederate privateer, Alabama, was at Lisbon during the civil war.

A United States ship entered Lisbon harbor while the Alabama was there, and the Alabama immediately withdrew. The United States ship apparently started in pursuit, whereupon the Portuguese batteries fired warning guns and were preparing to make armed resistance to the departure of the second warship before the first one had her full 24 hours start. It turned out that the northern ship had not intended to chase the Alabama, but was moving her buoys, so that trouble was averted. The same rule, allowing 24 hours start to warships of either country will be again observed in the present conflict between the United States and Spain.

MOVEMENT OF TROOPS.

More Regiments Ordered to Tampa From Chickamauga Camp.

Chickamauga National Park Ga., April 30.—The eight batteries in camp here ordered to Tampa last night. The entire day was taken up yesterday in getting the men, horses and guns aboard the cars. Trains bearing these men and their equipments have been given the right of way and it is expected they will arrive at Tampa this morning.

The Twenty-fourth infantry and the Ninth cavalry are under orders to move and today the infantry regiment will break camp and by night they will be on their way to the coast. The cavalry will leave tomorrow.

issued this evening for the removal to Tampa of the Twenty-fifth infantry and the Tenth cavalry and a semi-official rumor is current to the effect that the Second cavalry and the Seventh infantry will go early next week. None of these commands have been filled to war strength, very few enlistments having been made up to this time. The Sixteenth infantry, which arrived yesterday, was assigned to the first brigade, commanded by Colonel J. C. Bates.

SIXTEENTH OHIO MOVES.

Toledo, O., April 30.—The Sixteenth regiment Ohio National Guard recruited to full strength, left for Columbus yesterday. All business was suspended. It was escorted to the depot by the police force, G. A. R. and leading civic societies while factory and steamer whistles sounded incessantly. The streets along the line of march were densely packed with people and the demonstration was the largest Toledo ever saw.

GENERAL SHAFER'S STAFF ORDERED TO FLORIDA.

New Orleans, April 30.—The First regiment left here last night for Tampa, waiting over for General Shafter's staff, who were also ordered to meet the commander in Florida. The impression among army men is that the first army corps sent into Cuba will be for the purpose of co-operating with the insurgents. Other regiments have not received orders to leave.

KANSAS QUOTE REDUCED.

Topeka, Kan., April 30.—A communication from the secretary of war, received by Governor Leedy, reduces the Kansas quota 900 men from the number Governor Leedy expected to offer.

TEXAS TROOPS.

Austin, Tex., April 30.—Texas troops have received orders to move and began to assemble here yesterday. Today 4,200 men, infantry and cavalry, are encamped here.

Bellefontaine, O., April 30.—The venerable mother of Samuel Creighton has become insane over worrying about her son's untimely death, he dying from the effects of a blow delivered by George Farmer.

NIGHTIERO DISABLED.

London, April 30.—A dispatch to The Daily Mail from Rio Janeiro says the departure of the United States dynamite cruiser Nightiero has been delayed by a breakage in her machinery.

DEWEY'S WAR FLEET

Sighted Near Manila, But Unable to Communicate With Insurgents.

MATANZAS BAY TORPEDOED.

Spanish Believe It Will Be Impossible For Americans to Effect a Landing on That Account—Said Germany Will Not Permit Bombarding of Manila—Other War News.

Hong Kong, April 30.—Reported from Manila American squadron sighted off Bolinao, north of Manila, but weather too stormy for the fleet to communicate with insurgents.

MADRID NEWS.

False Report as to the Grounding of the Montgomery.

Madrid, April 30.—In official circles it is not believed that the Americans can effect a landing on the shores of Matanzas bay as the bay is full of torpedo-boats.

The reports cabled from Washington respecting the movements of the American army and fleet are considered as intended to hoodwink the Spanish government. The latest dispatches from Havana say it was the American warship Montgomery which went ashore off the coast of Pinar del Rio and that she grounded on the rocks near Colonados. According to these dispatches three other warships succeeded in floating her, but the Montgomery is badly damaged. [The Montgomery arrived at Key West yesterday and has not been in Cuban waters.]

There is great rejoicing in Havana at what is described as "the American repulse at Matanzas." It is not believed that the United States warships will venture to attack Manila.

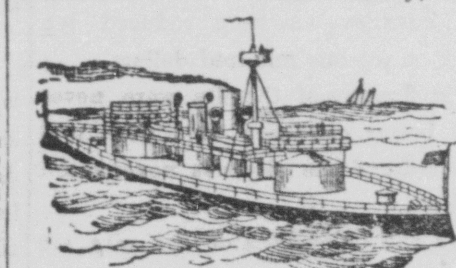

A great impression has been produced here by a rumor that the German government has issued a note declaring that it will not oppose the landing of troops in the Philippines but will not permit a bombardment, owing to the important German mercantile interests in all the towns of the islands. Germany's omission to declare neutrality is held to give color to this rumor.

General Weyer in the senate urged the government to take the offensive against America. He justifies his administration in Cuba.

WAS NO BOMBARDMENT.

Story Regarding the Cardenas Purely a Fake.

Key West, Fla., April 30.—The story of the bombardment of Cardenas by the ships of the fleet stationed there is false. The rumors suddenly developed from nowhere and thrived lustily, acquiring an elaborate finish of detail and ornamentation.

THE PURITAN.

quiring an elaborate finish of detail and ornamentation.

When the monitor Puritan steamed into port Captain Harrington, the commanding officer of the Cardenas fleet, gave the story its quietus by a firm declaration that there had been no bombardment of the Cardenas batteries, incidentally adding that there were no batteries there and only one or two insignificant gunboats which had given no sign of offense.

CONFIDENCE IN AMERICAN ARMS.

Lord Wolsey of the British Forces Think They Will Have a Walkover.

London, April 30.—A prominent Englishman, who believes in the justice of America's cause, and who is also of the opinion that the United States will certainly have a walkover, is Lord Wolsey, the commander-in-chief of the British forces. During a dinner party conversation, Lord Wolsey drew a parallel between Cuba and Crete, saying: "While England interfered in Crete on moral grounds, the United States has both moral and material justification for intervention. I believe the quality of the American army and navy is so much superior to Spain's that the Americans will have no difficulty in defeating Spain's ships and land forces, which are their equals or superiors on paper only."

DECLARATION OF NEUTRALITY.

Buenos Ayres, April 30.—The Argentine Republic will make a declaration of neutrality, but may not make coal contraband of war. The Spanish torpedo cruiser Ternario is still here.

MANILA IMPREGNABLE.

Madrid, April 30.—The Voz Espanola of Manila describes port of Manila as impregnable. Says six other principal ports in the Philippines bristle with guns, chiefly Krupp.

SEALING SCHOONER DORIS.

She Recently Lost Most of Her Men, Who Were Blown Away in Gale.

Astoria, Ore., April 30.—The pilot boat, San Jose, reports having spoken the sealing schooner, Doris, of Van Conover. The Doris recently lost most of her men. While hunting they were blown away from the vessel and were unable to again reach her. The Doris had 330 skins and reported five other sealers now along the coast were doing equally well.

DIRECT FOR SPAIN.

Three Auxiliary Cruisers, It Is Said, Will Sail.

Washington, April 30.—It is entirely possible that the American fleet in Cuban waters in the matter of seizing Spanish vessels as prizes will be soon eclipsed by the performance of the swift ocean greyhounds recently purchased by the government from the American line. These vessels, St. Louis and St. Paul and Harvard, have been fitted with armor protection over all their exposed machinery and have already received good batteries.

No official statement can be secured as to the destination of the splendid auxiliary cruisers, but it is rumored that they are to head directly for the coast of Spain where they will lie in wait for the Spanish prizes. Unless the small observation force of the Spanish in the Mediterranean, composed of torpedo-boats and destroyers, is reinforced before the liners reach those waters, they are likely to fall easy victims to the gunners of the cruisers.

NO FEAR OF OUTCOME.

Commander Asa Walker of Dewey's Fleet Heard From.

Frankfort, Ky., April 30.—Major J. Alexander Grant of this city has received a letter from his brother-in-law, Commander Asa Walker, of the United States gunboat Concord, now in the Asiatic squadron, in which he says the American sailors have no fears as to the outcome of a battle with the Spanish fleet now at Manila, and feel as sure of victory as they can feel about anything in war. The letter plainly shows that the fears felt here that our fleet might be demolished are groundless.

SENATE AND HOUSE.

Naval Bill Passed by Former and War Revenue Bill by Latter.

Washington, April 30.—The senate yesterday agreed to the report of the conferees on the naval appropriation bill as presented. The measure carries more than \$57,000,000. No other business of general importance was transacted.

The house passed the war revenue bill with only the amendments agreed upon by Republican members of the ways and means committee added.

GREAT EXCITEMENT.

Firing Heard at Eastport, Me., Believed to Be by a Spanish Gunboat.

Eastport, Me., April 30.—Great excitement here over 35 reports heard off Quoddy Head, and which were supposed to have come from a Spanish gunboat which is said to be in Fundy Bay.

LIEUTENANT DENT ORDERED TO REPORT.

Chicago, April 30.—Lieutenant Bane C. Dent a retired naval officer received orders yesterday to report at once on board the training ship Constellation, now at Newport, R. I. Lieutenant Dent is a nephew of General Grant. He tendered his services to Secretary Long and his offer was immediately accepted.

FALSE RUMORS.

There Were Many of Them at the Nation's Capital.
Washington, April 30.—A day of alarming rumors, running all the way from the blowing up of a big monitor to the detection and punishment of traitors, was yesterday, but fortunately all of them turned out, on inquiry, to be without foundation. Actual events of

There are many thousands of wise women in this country who, when they found that they were suffering from weakness or disease of their distinctively womanly organs, promptly wrote to an eminent and skillful physician, with a world-wide reputation, instead of trusting their cases to some obscure physician of small practice who would not diagnose troubles of this nature properly. If he does, he will insist on the obnoxious examinations and local treatment from which every sensitive, modest woman shrinks. The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and makes baby's coming easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. Over ninety thousand women have testified to its marvelous merits. Medicine dealers sell it. It is a druggist's business to give you, not to tell you, what you want. Any willing woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By enclosing 21 one-cent stamps in her letter, to cover cost of mailing only, she may secure a paper-covered copy of the "People's Common Sense Medical Ad-vice." Each copy has stamped on it

importance were few in number. The news of most interest was the departure from Cape Verde of the Spanish fleet, the stay of which at St. Vincent has been a source of anxiety on the part of the officials here, because it seems to indicate the sympathy of Portugal for Spain might lead her to wink at a violation of neutrality laws in favor of Spain. Late in the afternoon a cablegram came to the State department from Cape Verde, announcing that four battleships and three torpedo-boats had started north and some of the transports of Cuba, and that the northern fleet returned shortly, having been in collision.

Captain Sampson sent a telegram relative to the firing at the Matanzas forts, but it was disappointingly lacking in detail, but the few words contained in the dispatch went to confirm the official view that the affair was nothing more than a naval reconnaissance.

A large number of callers are bringing forward candidates for the many plums within the gift of the president and Secretary Alger in the shape of appointments to grades above regimental in the army. General Lee and General Dodge spent a good part of the day in conference with the officials, giving color to the reports that they are among those selected for appointment as major generals.

The announcement that the State of Texas, laden with supplies for the reconcentration is destined for Sagua, has led to the surmise that it is probably this port instead of Matanzas which has been selected for the landing place of the first attack of the United States.

Regarding the harmless growths that appear in the European papers, and threats to interfere to prevent the United States forces from blockading the Philippines, it may be stated that this was fully expected. During the civil war there were a great many attempts on the part of European nations to disregard our blockade and threats of interference, all of which came to naught from the firm attitude assumed by the secretary of State. In the present case the conditions of the Cuban blockade are much more liberal towards the powers than ever imposed before.

PORTUGAL'S DECREE.

Belligerents Will Be Permitted to Make Short Stops.

Washington, April 30.—Viscount De Santo Thirso, the Portuguese minister, looked over the cable dispatch from Lisbon giving the substance of the neutrality decree gazetted there, and said it was evidently accurate and covered the entire subject. The viscount says that article 8, which permits belligerents to make a short stop at Portuguese ports probably will be better understood by saying that belligerents will not be permitted to make long stays at Portuguese ports. In this connection the minister drew attention to the privileges permitted when warships of both belligerent nations were in the same port.

In that case, if the warship of one power leaves port, the warship of the other power cannot leave in pursuit within 24 hours, that much time being allowed the departing ship to go on her way without molestation. Portugal has

LANDING OF MARINES.
been very insistent upon this particular rule, and notable instance of it occurred when the famous confederate privateer, Alabama, was at Lisbon during the civil war.

A United States ship entered Lisbon harbor while the Alabama was there, and the Alabama immediately withdrew. The United States ship apparently started in pursuit, whereupon the Portuguese batteries fired warning guns and were preparing to make armed resistance to the departure of the second warship before the first one had her full 24 hours start. It turned out that the northern ship had not intended to chase the Alabama, but was moving her buoys, so that trouble was averted. The same rule, allowing 24 hours start to warships of either country will be again observed in the present conflict between the United States and Spain.

MOVEMENT OF TROOPS.

More Regiments Ordered to Tampa From Chickamauga Camp.

Chickamauga National Park Ga., April 30.—The eight batteries in camp here ordered to Tampa left last night. The entire day was taken up yesterday in getting the men, horses and guns aboard the cars. Trains bearing these men and their equipments have been given the right of way and it is expected they will arrive at Tampa this morning.

The Twenty-fourth infantry and the Ninth cavalry are under orders to move and today the infantry regiment will break camp and by night they will be on their way to the coast. The cavalry will leave tomorrow.

DEWEY'S WAR FLEET

Sighted Near Manila, But Unable to Communicate With Insurgents.

MATANZAS BAY TORPEDOED.

Spanish Believe It Will Be Impossible For Americans to Effect a Landing on That Account—Said Germany Will Not Permit Bombardment of Manila—Other War News.

Hong Kong, April 30.—Reported from Manila American squadron sighted off Bolinao, north of Manila, but weather too stormy for the fleet to communicate with insurgents.

MADRID NEWS.

False Report as to the Grounding of the Montgomery.
Madrid, April 30.—In official circles it is not believed that the Americans can effect a landing on the shores of Matanzas bay as the bay is full of torpedoes.

The reports cabled from Washington respecting the movements of the American army and fleet are considered as intended to hoodwink the Spanish government. The latest dispatches from Havana say it was the American warship Montgomery which went ashore off the coast of Pinar del Rio and that she grounded on the rocks near Colonados. According to these dispatches three other warships succeeded in floating her, but the Montgomery is badly damaged. [The Montgomery arrived at Key West yesterday and has not been in Cuban waters.]

There is great rejoicing in Havana at what is described as "the American repulses at Matanzas." It is not believed that the United States warships will venture to attack Manila.

A great impression has been produced here by a rumor that the German government has issued a note declaring that it will not oppose the landing of troops in the Philippines but will not permit a bombardment, owing to the important German mercantile interests in all the towns of the islands. Germany's omission to declare neutrality is held to give color to this rumor.

General Weyer in the senate urged the government to take the offensive against America. He justifies his administration in Cuba.

WAS NO BOMBARDMENT.

Story Regarding the Cardenas Purely a Fake.

Key West, Fla., April 30.—The story of the bombardment of Cardenas by the ships of the fleet stationed there is false. The rumors suddenly developed from nowhere and thrived lustily, acquiring an elaborate finish of detail and ornamentation.

When the monitor Puritan steamed into port Captain Harrington, the commanding officer of the Cardenas fleet, gave the story its quietus by a firm declaration that there had been no bombardment of the Cardenas batteries, incidentally adding that there were no batteries there and only one or two insignificant gunboats which had given no sign of offense.

CONFIDENCE IN AMERICAN ARMS.

Lord Wolsey of the British Forces Think They Will Have a Walkover.

London, April 30.—A prominent Englishman, who believes in the justice of America's cause, and who is also of the opinion that the United States will certainly have a walkover, is Lord Wolsey, the commander-in-chief of the British forces. During a dinner party conversation, Lord Wolsey drew a parallel between Cuba and Crete, saying: "While England interfered in Crete on moral grounds, the United States has both moral and material justification for intervention. I believe the quality of the American army and navy is so much superior to Spain's that the Americans will have no difficulty in defeating Spain's ships and land forces, which are their equals or superiors on paper only."

DECLARATION OF NEUTRALITY.

Buenos Ayres, April 30.—The Argentine Republic will make a declaration of neutrality, but may not make coal contraband of war. The Spanish torpedo cruiser Ternarrario is still here.

MANILA IMPREGNABLE.

Madrid, April 30.—The Vox Espanola of Manila describes port of Manila as impregnable. Says six other principal ports in the Philippines bristle with guns, chiefly Krupp.

SEALING SCHOONER DORIS.

She Recently Lost Most of Her Men, Who Were Blown Away in Gale.

Astoria, Ore., April 30.—The pilot boat, San Jose, reports having sighted the sealing schooner, Doris, of Van Couper. The Doris recently lost most of her men. While hunting they were blown away from the vessel and were unable to again reach her. The Doris had 330 skins and reported five other sealers now along the coast were doing equally well.

DIRECT FOR SPAIN.

Three Auxiliary Cruisers, It Is Said, Will Sail.

Washington, April 30.—It is entirely possible that the American fleet in Cuban waters in the matter of seizing Spanish vessels as prizes will be soon eclipsed by the performance of the swift ocean greyhounds recently purchased by the government from the American line. These vessels, St. Louis and St. Paul and Harvard, have been fitted with armor protection over all their exposed machinery and have already received good batteries.

No official statement can be secured as to the destination of the splendid auxiliary cruisers, but it is rumored that they are to head directly for the coast of Spain where they will lie in wait for the Spanish prizes. Unless the small observation force of the Spanish in the Mediterranean, composed of torpedo-boats and destroyers, is reinforced before the liners reach those waters, they are likely to fall easy victims to the gunners of the cruisers.

NO FEAR OF OUTCOME.

Commander Asa Walker of Dewey's Fleet Heard From.

Frankfort, Ky., April 30.—Major J. Alexander Grant of this city has received a letter from his brother-in-law, Commander Asa Walker, of the United States gunboat Concord, now in the Asiatic squadron, in which he says the American sailors have no fears as to the outcome of a battle with the Spanish fleet now at Manila, and feel as sure of victory as they can feel about anything in war. The letter plainly shows that the fears felt here that our fleet might be demolished are groundless.

SENATE AND HOUSE.

Naval Bill Passed by Former and War Revenue Bill by Latter.

Washington, April 30.—The senate yesterday agreed to the report of the conferees on the naval appropriation bill as presented. The measure carries more than \$57,000,000. No other business of general importance was transacted.

The house passed the war revenue bill with only the amendments agreed upon by Republican members of the ways and means committee added.

GREAT EXCITEMENT.

Firing Heard at Eastport, Me., Believed to Be by a Spanish Gunboat.

Eastport, Me., April 30.—Great excitement here over 35 reports head off Quoddy Head, and which were supposed to have come from a Spanish gunboat which is said to be in Fundy Bay.

LIUTENANT DENT ORDERED TO REPORT.

Chicago, April 30.—Lieutenant Bane C. Dent a retired naval officer received orders yesterday to report at once on board the training ship Constitution, now at Newport, R. I. Lieutenant Dent is a nephew of General Grant. He tendered his services to Secretary Long and his offer was immediately accepted.

SILK FLAG.

Harrodsburg, Ky., April 30.—Colonel Gaither received a telegram from Mrs. M. T. Scott of Lexington, asking him if he would accept a silk flag from the Daughters of the American Revolution at that place as his regimental colors. He replied that he would most gratefully accept the flag.

SPANISH SPY ARRESTED.

Vicksburg, Miss., April 30.—Frank Unado, a Spaniard, who has been hanging around town for a week past, was arrested by the police last night on suspicion of being a Spanish spy.

INDIANA BOYS.

Case of Measles at Camp Mount—Fears of an Epidemic.

Indianapolis, April 30.—General McKee said yesterday that he had received no information as to when the troops would be mustered, nor as to how long Camp Mount would be maintained. It is now generally believed by the officers of the Guard that General McKee will be appointed to the command of the Indiana troops, notwithstanding the strong efforts made by certain regular army officers to supplant him. Private telegrams received in this city says his appointment is as good as made.

Governor Mount may have the camp closed tomorrow owing to the crowds expected here on excursions. Should such action be taken, it is said, the parents of any of the soldiers will have an opportunity to see their sons.

The discipline at the camp grows more strict each day, and the boys are beginning to realize something of true camp life of a soldier. The play time is over and the troops are being put through all manner of drills and worked hard enough to make them relish the course far furnished for an army.

A case of measles developed in camp yesterday, and it is feared there may be an epidemic. The victim is Warren Jaqua, private in company F. Otherwise the physicians are surprised at the good health of the men. Regular army officers, who have visited the camp, say the troops are a fine body of representative American citizens and well qualified to make excellent soldiers.

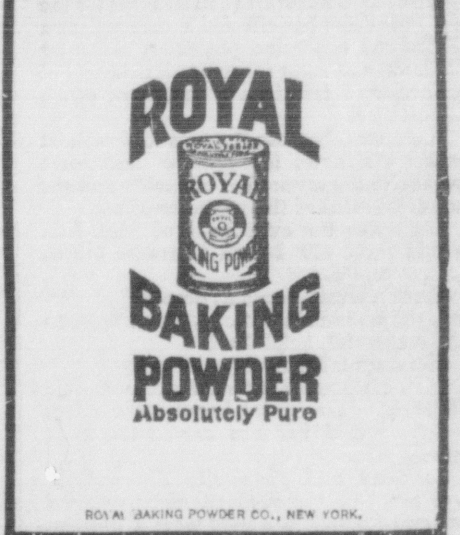

WHI SAVE THEIR PLACES.

Middleton, Ind., April 30.—Captain J. A. Young, a veteran of the late war, is recruiting a company, and some of the best young men of the city have enlisted under him. The Indiana glass company, with which Captain Young is connected, has posted a notice that places will be retained for all employees of the factory who may go to the front.

McKEE GETS IT.

Washington, April 30.—It is said here that the president has promised Senator Fairbanks to appoint General McKee, brigadier general of Indiana troops.

Royal makes the food pure, wholesome and delicious.

The American Liner Sighted off Fire Island.

New York, April 30.—The American liner Paris has been sighted east of Fire Island.

UNCONSTITUTIONAL.

Supreme Court of Illinois So Decides the Apportionment Act.

Springfield, Ill., April 30.—The supreme court late last night filed a decision in the case of William Mooney vs. William Hutchinson, county clerk of Will county, an action brought to test the recently enacted senatorial apportionment. The court holds that the apportionment bill passed by the Republican legislature at the special session is unconstitutional. The courts holds that the constitution of Illinois provides that the state shall be apportioned after each federal census and at no other time.

SHOT IN COLD BLOOD.

James Keeley Instantly Killed by Leo Vickers.

Dayton, O., April 30.—James Keeley, a butcher, was shot and instantly killed at a roadhouse, two miles east of the city, by Leo Vickers, a brass finisher. The two had quarreled and separated. Keeley was in the barroom reading a paper when Vickers came in, and, drawing a revolver, shot down his victim in cold blood. Vickers then fired at Keeley's companion, but missed him, and then went to the bar and demanded a drink, immediately staggering from the place.

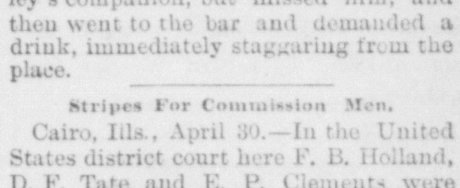

STRIPES FOR COMMISSION MEN.

Cairo, Ill., April 30.—In the United States district court here F. B. Holland, D. F. Tate and E. P. Clements were sentenced to the penitentiary, the first for four years and the others for 18 months each. They conducted a commission business at Springfield, Ill., soliciting consignments and selling the shipments they received and pocketing the proceeds. Their operations covered 28 states, and have been running for several years.

WILL ABIDE THE TERMS OF HER TREATY.

Port Au Prince, Hayti, April 29.—Haytian government has officially informed the United States minister, W. F. Powell, that Hayti will fulfill all the terms of her treaty with the United States in regard to privateering, etc., during the war between Spain and the United States.

New Era in Medicine.

This tells of a discovery that alleviates suffering and prolongs life. It is inexpensive, effective. Medical science is revolutionized over this, one of the greatest achievements of modern times.

The fact that several dollars spent for the right medicine has effected a cure where a skilled and expensive physician aided by the latest and most ingenious instrument of science, had failed, is a matter of much importance.

Important, because it opens to downcast sufferers a new, inexpensive and sure avenue to the restoration of health and the full enjoyment of the pleasures of life.

Such was the experience of Mrs. Ada M. Herr, of 439 North Charlotte Street, Lancaster, Pa.

From a weak, nervous, desponding person, she was made a strong, active woman and a cheerful, helpful wife.

Her story is interesting. Mrs. Herr suffered terribly from female disorders. Her nerves became unstrung, cramps gripped her and caused the most intense pain.

So weak and physically demoralized was she, that the slightest labor wearied her and household duties were a burden. The most alarming symptoms of her malady were the frequent fainting spells that afflicted her.

In the midst of her work, or in a conversation, dizziness would come upon her and she would fall prostrate in a swoon.

She consulted a reputable physician. He diagnosed her case and prescribed the usual remedies.

Instead of improving, she continued to grow worse; the ailment that was robbing her life of the joys of young womanhood became more pronounced.

It seemed impossible to correct or even to check the disorders.

"I had become greatly weakened," said Mrs. Herr, in telling her story to a reporter, "and the awful cramps and the frequency and nature of the fainting spells alarmed me beyond belief and shattered my system."

"I tried electric treatment; it failed, and I did not know where to turn for help."

"A friend told me how her mother had been greatly benefited by taking Dr. Williams' Pink Pills for Pale People."

"I had but little hope for success, but decided to give these pills a trial."

"I took two boxes and was much benefited. After taking six more boxes I was cured. Dr. Williams' Pink Pills for Pale People had done what all the previous treatment had failed to do."

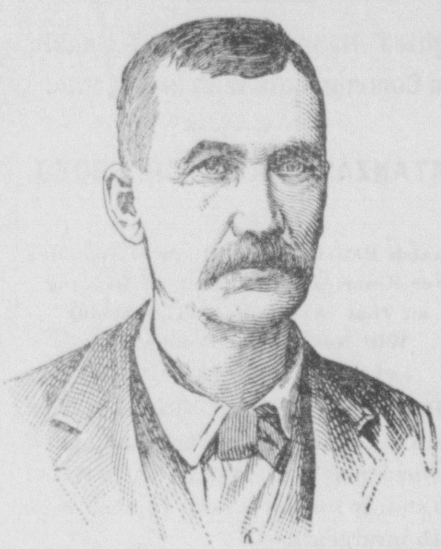

"I am fully restored to health now, and do things that I had hardly dared attempt before."

No discovery of modern times has proved such a boon to women as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health to the exhausted woman when every effort of the physician proves unavailing.

These pills are recognized everywhere as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. Truly they are one of the greatest blessings ever bestowed upon mankind.

ABE THICKSTEN.

Abe Thicksten, the republican candidate for marshal, was born in Jennings county, near Vernon, December 20, 1841. He received his early schooling in the district schools of that county and later he attended the high school at Vernon under the teaching of Judge Jephtha D. New. He worked with his father on the farm until about 17 years old, when with his parents he went to Boone county, settling near

Lebanon. Here his father remained for two years, after which he came to Jackson county in 1864, settling near Hangman's Crossing, west of Seymour. Abe left home at the age of 18 years and began working on the farm for himself. In May, 1867 he enlisted in the army for service and was out until November, 1864, when he returned to his father's home in this county.

After returning from the war, he was a brakeman on the old O. & M. railroad for one year. For nine years he was employed by the Shields family, farming and handling stock. In 1875, he went to Vernon where he was employed for eight years in the plow works at that place. Returning here, he has been a resident of the county ever since. He has been on the police force for nearly six years, during which time he has discharged his duties courageously and without fear of any man. The fact that only he and the night police are employed to look after law breakers in the city is sufficient evidence, when we consider the small amount of lawlessness here, to show that the police work has been well done. He will be the choice of the people on the 3d of May for marshal to succeed himself.

POLITICAL BREVITIES.

Since the present administration took charge of the affairs of the city the city debt has been reduced \$14,500.

The bonded debt of the city has been reduced at a lower rate of interest.

The tax levy has been reduced ten cents on the one hundred dollars.

The finances of the city were never in a better condition than now, and the credit of the city was never rated higher.

All the obligations of the city are promptly paid when due, and there is now a very substantial balance in the treasury.

During this time seven blocks of brick streets have been put down which improvement has been of substantial and lasting benefit, adding to the beauty, comfort and convenience of our city.

MOTHER! on us. We have something good in store for the people of Seymour and surrounding country. The Old Bollinger Shoe Stand, No. 14 S. Chestnut St.

FRANK GROFF is still doing his own talking. The organs have nothing yet to say for him.

CHARLEY BURKART and some of his pushers held a conference over in the third ward last evening. The officiousness of Charley at this meeting is what was most emphatically impressed on the minds of those present.

The man from Iowa City is not quite so well known here as Thos. J. Clark and what he has to say of a derogatory nature will have little weight in this community along side the honorable and useful career of our genial city treasurer.

No man is more familiar with the needs of the second ward and can represent the interests of the people there better than Bern Shepard. He is centrally located in the ward, owns his own property and takes a positive interest in the welfare and progress of the city. He is energetic and successfully manages his own business. He is a public spirited man and is always ready to do his full share in whatever advances the interests of Seymour and her people.

JAMES O. STAPLES has read the signs of the times better than some of his colleagues, and he is trying to get in out of the wet. He concedes Arbuckle's defeat and no doubt hopes for that result, as Arbuckle would do all the legal and judicial work of the city in case of his election, and Jimmie would have very shallow and empty honor without the profit he covets. It would be well for Mr. Arbuckle to watch the movements of certain gentlemen who may be willing to see him go down and Jimmie go up. No charge for this suggestion as the voters have to rely on the REPUBLICAN to give them the facts.

No part of the city has had a more faithful and efficient servant than the citizens of the third ward have had in James DeGoyler. He has been diligent in the performance of all his duties on the various committees and prompt in looking after the needs of his people. The streets and alleys have been kept clean, well drained and in good repair during his term. He lives among those he represents, has his property, and his home is there, and he has the ability to understand public matters and the courage to do his duty. It would be a matter of general regret and a positive misfortune to the people of that ward if they should allow him to be defeated in the coming election.

The Seymour Democrat has made it a point to attack the railroads and their employes in this campaign. Dan Lester was beaten in the primary solely because he is an employee of the B. & O. S. W. Railway Company, through machine and boss methods. It is a sad state of affairs when an honest and industrious and sober man is denied the honors of civil life, solely because he works in some particular employment. Charles E. Miles was favorably spoken of as a man highly capable and well suited for councilman in the second ward, but the bosses said it would never do, and even though he had consented to serve, his fate would have been the same as Lester's. It is our belief that these men and others in like employment have honor and an honest purpose in life and can and will do their whole duty in every position. It has been the policy of the present city administration to deal fairly and justly with the railroads and all their interests and to respect their employes as other good citizens. No party or set of men can afford to fight any one of our valuable institutions and we hope that the citizens will manifest their disapproval of the course of the Democrat in this respect.

By experience and natural ability John A. Goodale is one of the best equipped men for councilman in Seymour. He never fails to respond to the calls of his people and to honestly and faithfully represent their interests. His services in the council have been of great value to the city as every one must admit. The voters of the first ward will show their appreciation of his work by reelecting him next Tuesday.

The career of A. W. Mills shows him to be a man of remarkable energy and business ability. He has succeeded in whatever line of work he has undertaken because of his ability and close application to business. He ranks with the best of our business men. He is fitted by experience as well as sound judgment to successfully care for large responsibilities. The people know these facts and will put him at the head of the affairs of the city, in which he takes so much pride, by electing him mayor next Tuesday.

GRAVEL ROAD ELECTION.

Light Vote Being Polled in the City Today.

As the REPUBLICAN goes to press the election for the Dudleytown and Seymour gravel road is in progress. A light vote is being polled all over the city. The report as we go to press shows the following vote cast: 1st precinct 62; 2d precinct 73; 3d precinct 63; 4th precinct 47; 5th precinct 67; 6th precinct 69; 7th precinct 70; 8th precinct 70; 9th precinct 42, total 554.

Mrs. D. J. Reed, of Jennings county, drove down to the city today to shop.

Mrs. George Klitch, of Ewing, came up to the city this morning on business.

B. C. Lett and Ben Fleetwood, of Surprise, came over to the city today on business.

J. H. Renner, C. M. Barnes and C. H. Jackson and families, of Bartholomew county, drove down to the city today on business and to shop.

Mrs. J. L. Kendrick and Mrs. F. D. Kendrick, of Hayden, who have been in the city on business returned home last evening loaded down with goods.

BOBBIE BINDER was given his start in politics when Keynotes Sounder made him one of his lieutenants in the campaign of 1896. In return Wesner has Bobbie's support in his ambition to be city attorney.

It was not enough for George Thompson to defeat Lou Bruning and William Railing in the primary. His ambition leads him to hope for something more substantial for himself. He would like to be street commissioner.

It is well understood that Mr. Wesner was active in the primary and exceedingly anxious to secure the nomination of George Huber for councilman in the first ward. He succeeded in his efforts, and Mr. Huber will show his appreciation for this valuable aid if elected to the council by voting for Fernando W., popularly known as "Keynote," for city attorney. There is said to be no constitutional obstacles in the way of this scheme, and other considerations such as capacity and legal accomplishments are not to be considered. All who believe that Wesner has not been duly appreciated and that he ought to have another office or two should vote for Huber for councilman next Tuesday.

As a member of the city council J. W. Bergdoll has been faithful to every duty. He has looked closely after the needs of his ward and has accomplished much for his constituents. A comparison of the condition of the streets and alleys and sidewalks in his ward now with what they were four years ago is proof enough for this assertion. He is a man of practical ideas and mature judgment and as an official looks closely to the interests of the people. It is not probable that he will be displaced by a young man who pleads no qualifications other than that he is a 16 to 1 democrat.

New Era in Medicine.

This tells of a discovery that alleviates suffering and prolongs life. It is inexpensive, effective. Medical science is revolutionized over this, one of the greatest achievements of modern times.

The fact that several dollars spent for the right medicine has effected a cure where a skilled and expensive physician aided by the latest and most ingenious instrument of science, had failed, is a matter of much importance.

Important, because it opens to downcast sufferers a new, inexpensive and sure avenue to the restoration of health and the full enjoyment of the pleasures of life.

Such was the experience of Mrs. Ada M. Herr, of 439 North Charlotte Street, Lancaster, Pa.

From a weak, nervous, desponding person, she was made a strong, active woman and a cheerful, helpful wife.

Her story is interesting.

Mrs. Herr suffered terribly from female disorders. Her nerves became unstrung, cramps gripped her and caused the most intense pain.

So weak and physically demoralized was she, that the slightest labor wearied her and household duties were a burden.

The most alarming symptoms of her malady were the frequent fainting spells that afflicted her.

In the midst of her work, or in a conversation, dizziness would come upon her and she would fall prostrate in a swoon.

She consulted a reputable physician. He diagnosed her case and prescribed the usual remedies.

Instead of improving, she continued to grow worse; the ailment that was robbing her life of the joys of young womanhood became more pronounced.

It seemed impossible to correct or even to check the disorders.

"I had become greatly weakened," said Mrs. Herr, in telling her story to a reporter, "and the awful cramps and the frequency and nature of the fainting spells alarmed me beyond belief and shattered my system."

"I tried electric treatment; it failed, and I did not know where to turn for help."

"A friend told me how her mother had been greatly benefited by taking Dr. Williams' Pink Pills for Pale People."

"I had but little hope for success; but decided to give these pills a trial."

"I took two boxes and was much benefited. After taking six more boxes I was cured. Dr. Williams' Pink Pills for Pale People had done what all the previous treatment had failed to do."

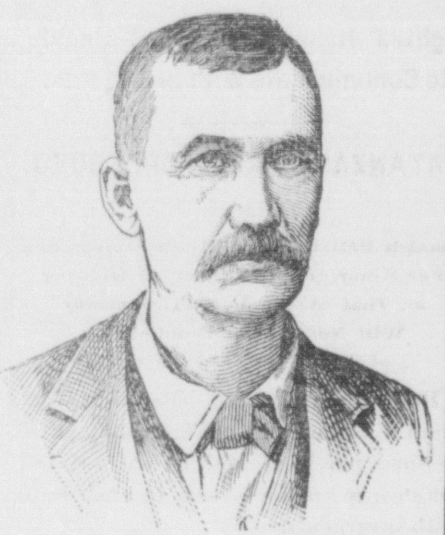

"I am fully restored to health now, and do things that I had hardly dared attempt before."

No discovery of modern times has proved such a boon to women as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health to the exhausted woman when every effort of the physician proves unavailing.

These pills are recognized everywhere as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. Truly they are one of the greatest blessings ever bestowed upon mankind.

ABE THICKSTEN.

Abe Thicksten, the republican candidate for marshal, was born in Jennings county, near Vernon, December 20, 1841. He received his early schooling in the district schools of that county and later he attended the high school at Vernon under the teaching of Judge Jephtha D. New. He worked with his father on the farm until about 17 years old, when with his parents he went to Boone county, settling near

Lebanon. Here his father remained for two years, after which he came to Jackson county in 1864, settling near Hangman's Crossing, west of Seymour. Abe left home at the age of 18 years and began working on the farm for himself. In May, 1862 he enlisted in the army for service and was out until November, 1864, when he returned to his father's home in this county.

After returning from the war, he was a brakeman on the old O. & M. railroad for one year. For nine years he was employed by the Shields family, farming and handling stock. In 1875, he went to Vernon where he was employed for eight years in the plow works at that place. Returning here, he has been a resident of the county ever since. He has been on the police force for nearly six years, during which time he has discharged his duties courageously and without fear of any man. The fact that only he and the night police are employed to look after law breakers in the city is sufficient evidence, when we consider the small amount of lawlessness here, to show that the police work has been well done. He will be the choice of the people on the 3d of May for marshal to succeed himself.

POLITICAL BREVITIES.

Since the present administration took charge of the affairs of the city the city debt has been reduced \$14,500.

The bonded debt of the city has refunded at a lower rate of interest.

The tax levy has been reduced ten cents on the one hundred dollars.

The finances of the city were never in a better condition than now, and the credit of the city was never rated higher.

All the obligations of the city are promptly paid when due, and there is now a very substantial balance in the treasury.

During this time several blocks of brick streets have been put down which improvement has been of substantial and lasting benefit, adding to the beauty, comfort and convenience of our city.

MOTHER!

There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

MOTHER'S FRIEND

"My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER," says a customer.

FRANK GROFF is still doing his own talking. The organs have nothing yet to say for him.

CHARLEY BURKART and some of his pushers held a conference over in the third ward last evening. The officiousness of Charley at this meeting is what was most emphatically impressed on the minds of those present.

The man from Iowa City is not quite so well known here as Thos. J. Clark and what he has to say of a derogatory nature will have little weight in the community along side the honorable and useful career of our genial city treasurer.

No man is more familiar with the needs of the second ward and can represent the interests of the people there better than Barn Sheppard. He is centrally located in the ward, owns his own property and takes a positive interest in the welfare and progress of the city. He is energetic and successfully manages his own business. He is a public spirited man and is always ready to do his full share in whatever advances the interests of Seymour and her people.

JAMES O. STAPLES has read the signs of the times better than some of his colleagues, and he's trying to get in out of the wet. He concedes Arbuckle's defeat and no doubt hopes for that result, as Arbuckle would do all the legal and judicial work of the city in case of his election, and Jimmie would have very shallow and empty honor without the profit he covets. It would be well for Mr. Arbuckle to watch the movements of certain gentlemen who may be willing to see him go down and Jimmie go up. No charge for this suggestion as the voters have to rely on the REPUBLICAN to give them the facts.

No part of the city has had a more faithful and efficient servant than the citizens of the third ward have had in James DeGoyler. He has been diligent in the performance of all his duties on the various committees and prompt in looking after the needs of his people. The streets and alleys have been kept clean, well drained and in good repair during his term. He lives among those he represents, has his property, and his home is there, and he has the ability to understand public matters and the courage to do his duty. It would be a matter of general regret and a positive misfortune to the people of that ward if they should allow him to be defeated in the coming election.

The Seymour Democrat has made it a point to attack the railroads and their employees in this campaign. Dan Lester was beaten in the primary solely because he is an employee of the B. & O. S. W. Railway Company, through machine and boss methods. It is a sad state of affairs when an honest and industrious and sober man is denied the honors of civil life, solely because he works in some particular employment. Charles E. Miles was favorably spoken of as a man highly capable and well suited for councilman in the second ward, but the bosses said it would never do, and even though he had consented to serve, his fate would have been the same as Lester's. It is our belief that these men and others in like employment have honor and an honest purpose in life and can and will do their whole duty in every position. It has been the policy of the present city administration to deal fairly and justly with the railroads and all their interests and to respect their employees as other good citizens. No party or set of men can afford to fight any one of our valuable institutions and we hope that the citizens will manifest their disapproval of the course of the Democrat in this respect.

A telegram received from our eastern buyer that he has bought \$5,000.00 worth of Clothing and Shoes at nearly one-half price. WATCH US. Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

My Nellie's Sentiments.

A WOMAN'S WAY.

When I talk to her of fightin'—in case we has ter go

Whar the cruisers air a-cruisin' on the ocean fer the foe,

She throws her arms aroun' me, her eyes with tears air dim,

"Dear John, please tell the gov'ment that you can't can't swim."

When I tell her of they needs me I will have ter show my hand

An' help 'em on the water like I use ter on the land,

She 'pears ter think my chances on a cruiser 'ud be slim.

"Dear John, please tell the gov'ment that you jest can't swim."

Now ain't these women cur'ous? Fer she knows as well as me

I kin swim the widest river, an' 'cud hol' my own at sea.

But ever' time it's mentioned her eyes with tears air dim

"Dear John, please tell the gov'ment that you jest can't swim."

MY SENTIMENTS.

When down at the blue skies arching

You behold our flag once more,

And you see the soldiers marching

To the scenes of bloody war,

When the drums are loudly sounding

And the shrill fife rends the air,

When the horses' hoofs are pounding

You can bet I won't be there.

Summer Tailor Suit.

Duck and pique tailor suits will be one of this summer's novelties. These suits will be braided, simply or elaborately with cotton or linen braid and made with the same distinction in cut and fit that is usually lavished only on expensive wool gown.

In dark shades duck and pique will appear for outing suits, for bicycling, tennis, golfing and cricket.—From "Mag Fashion Review," by Mme. Mathilde Verlet, in Demorest's Family Magazine for May.

The Nebraska cow is still all right. At least the free silver Omaha World-Herald makes the following statement: "Today the creamery industry, with its attendant industry, poultry and eggs, is making rapid strides forward. By degrees the western Nebraska farmer is learning how to make the most of climatic conditions, and the time is near at hand when the drought will have no fears for him."

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Cuts about as coffee. 15 and 25c.

Wheat continues to go up without any reference to silver. It has been selling in New York and Chicago of late at prices ranging from \$1.13 to \$1.18. On the day that President McKinley was inaugurated it sold in New York at 93 cents. On the day of McKinley's election, it was 85 cents. At the date of Bryan's nomination, it was 68 cents. Two years after Cleveland's inauguration, it was 58 cents, and in October of 1894, just after the adoption of the Wilson tariff, it was 54 cents per bushel, less than half of its present price.

PROF. CHANUTE'S AERIALSHIPS

Missing Man's Body Found—\$5,000 Fire Near Flora—Miss Withrow Will Deliver Decoration Day Oration at Dillsboro—Home For Old People — Preacher Enlists.

Delaware, O., April 30.—The first man to receive a diploma this year from the Ohio Wesleyan University was Warren Fairbanks, son of Senator Fairbanks, of Indiana, who was a member of the senior class. Mr. Fairbanks received a telegram from Governor Mount, ordering him to report to him at once. The faculty granted him an immediate examination, which he successfully passed, receiving a diploma of the university. Mr. Fairbanks has been anxious to enlist in the militia of Indiana, and through the influence of his father, will undoubtedly receive a commission from Governor Mount.

AERIAL NAVIGATION.

Professor O. Chanute Will Test His Airships in Lake County. Auburn, Ind., April 30.—Professor O. Chanute, the French inventor, will again try to solve the problem of aerial navigation. His trial station will be at Millers, Lake county. All the Frenchman's machines have huge wings, and he believes in the bird principle. Three machines are now on the ground, the largest having 14 wings, each 7 feet wide and 8 feet long. Several flights of 100 feet and over have been made with this machine, which Mr. Chanute hopes to have perfected in time to be used in the Cuban-American war.

REMARKABLE FAITH CURE.

Miss Fay Wescott, Unable to Walk Without Crutches, Is Healed. Kokomo, Ind., April 30.—Miss Fay Wescott of this city has experienced a remarkable faith cure. The girl, who is only 13 years old, has been unable to wear her shoes or walk without crutches. As a last resort she was sent to a faith cure institute, and she has just returned home apparently permanently cured. The family belongs to the Baptist church.

SENTENCED FOR LIFE.

Fred Ellis Found Guilty of Murder in Second Degree. Greencastle, Ind., April 30.—The jury in the case of Fred Ellis, charged with murdering Frederick Krack, in Brazil, on March 9, yesterday returned a verdict of murder in second degree and sentenced Ellis to imprisonment for life. Ellis shot Krack to death in a boarding house. Jury was unanimous as to Ellis' guilt.

Pensions Granted.

Aged Woman Learns to Write.

Wabash, Ind., April 30.—Mrs. Sarah Niccum, 70 years old, yesterday wrote her first letter. Denied advantages in her youth, she never learned to write until now. Later her children undertook to instruct her. She was an apt pupil, and has written a formal letter to a son, writing a legible hand.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, see your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Register and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

Senator Pritchard of North Carolina became prominent in the co-operative movement in North Carolina, the success of which resulted in his election to the U. S. Senate to fill the term of the late Senator Z. B. Vance. He was re-elected to the Senate in 1887.

Mrs. Pritchard's testimonial to her faith in Paine's celery compound is reproduced above.

Below is a testimonial received from the wife of U. S. Senator Warren of Wyoming, whose distinguished services for the country's best farming interests are so well known.

"I was persuaded to try your Paine's celery compound in the early spring, when in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting, and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and can truthfully say that I am in almost perfect health again. If I ever find myself running down again, I shall certainly give it

another trial, and will in the mean time recommend it to every one needing it.

It is now time, if ever, to get health and strength.

Nothing should now interfere with building up weakened nerves and purifying the blood.

Now is the time of year when rheumatism and neuralgia must be cured, when debility and nervousness must be checked when bad health must be mended—if one hopes ever to get well.

It is not that rheumatism, neuralgia, insomnia, and kidney troubles are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the early symptoms of disease.

Thousands of lives that are now fast wearing out would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the run-down, nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs; the holy sepulchers to which the pilgrimages are made, its palaces, is well worth weeks of study, while many lesser cities are centers of peculiar interest. Thus Guanajuato, its catacombs; Zacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. There are but a few of the more conspicuous points which the tourist makes stopping places on his journey. ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble.

The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

Mrs. Pritchard Got Entire Relief from Rheumatism by Use of Paine's Celery Compound

United States Senate,

Washington, D. C. May 1894

Will Richardson Esq. Es. Burlington Vermont.

I found Paine's Celery Compound an excellent remedy for rheumatism. It has not only cured me but I feel better than I have for years. Mrs. J. C. Pritchard 1820 I St. A. H.

Senator Pritchard of North Carolina became prominent in the co-operative movement in North Carolina, the success of which resulted in his election to the U. S. Senate to fill the term of the late Senator Z. B. Vance. He was re-elected to the Senate in 1887.

Mrs. Pritchard's testimonial to her faith in Paine's celery compound is reproduced above.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky. for twelve years; he has sold hundreds of bottles of this remedy and all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

DR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

TRANSPORT VESSELS

Government Has Not Enough to Land Number of Men Desired in Cuba.

MANY UTTERLY FALSE RUMORS

Washington Kept in a State of Excitement Over Them.

Captain Sampson Notifies the Navy Department of the Bombardment of Matanzas—European Growth Over Prospective Blockading of the Philippines Regarded as Harmless—Portugal's Neutrality Decree and Its Conditions Regarding Stay of Belligerent Ships in the Harbors of That Country—Movement of Troops at Chickamauga—War and Naval Bills.

Washington, April 30.—General Miles and his assistants were in conference at various times during yesterday respecting military operations that are to be undertaken in the occupation of Cuba. They all maintain the strictest reticence concerning the result of these deliberations and have adopted the policy of making nothing public regarding them, even the regular army movements are not divulged and none of the officials would confirm the reports published that the infantry regiments at New Orleans and some of the troops at Chickamauga are to proceed without delay to Tampa. General Shafter, who commands the brigade at New Orleans, left last night for that place accompanied by his adjutant, Colonel Babcock. The Cuban representatives in Washington were at General Miles' headquarters and were consulted in regard to various steps which would arise in connection with the co-operation of the United States troops with the insurgent forces in Cuba.

The war department, it is expected, will endeavor to secure additional ships for transports, but it is said none were acquired today. The capacity of those obtained is not adequate for the number of men which, it is reported, is to embark on the expedition to one of the Cuban ports, and which, it is believed, will be sent in a very short time. The commissary department has depots of supplies at New Orleans, Mobile, Tampa and Chickamauga, adequate, it is said, for the immediate means of the service.

FALSE RUMORS.

There Were Many of Them at the Nation's Capital.

Washington, April 30.—A day of alarming rumors, running all the way from the blowing up of a big monitor to the detection and punishment of traitors, was yesterday, but fortunately all of them turned out, on inquiry, to be without foundation. Actual events of

the day were many thousands of wise women in this country who, when they found that they were suffering from weakness or disease of their distinctly womanly organs, promptly wrote to an eminent and skillful physician, with a world-wide reputation, instead of trusting their cases to some obscure physician with but limited practice and experience. There are many reasons why a wise woman follows this course. The chances are that an obscure physician of small practice will not diagnose troubles of this nature properly. If he does, he will insist on the obnoxious examinations and local treatment from which every sensitive, modest woman shrinks.

The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and makes baby's coming easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. Over ninety thousand women have testified to its marvelous merits. Medicine dealers sell it.

It is a druggist's business to give you, not to tell you, what you want. Any sitting woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By enclosing 21-cent stamps in her letter, to cover cost of mailing only, she may secure a paper-covered copy of the "People's Common Sense Medical Adviser" in cloth bound, at 50 cents.

Patent Lawyers, WASHINGTON, D. C.

importance were few in number. The news of most interest was the departure from Cape Verde of the Spanish fleet, the stay of which at St. Vincent has been a source of anxiety on the part of the officials here, because it seems to indicate the sympathy of Portugal for Spain might lead her to wink at a violation of neutrality laws in favor of Spain. Late in the afternoon a cablegram came to the State department from Cape Verde, announcing that four battleships and three torpedo-boats had started north and some of the transports of Cuba, and that the northern fleet returned shortly, having been in collision.

Captain Sampson sent a telegram relative to the firing at the Matanzas forts, but it was disappointingly lacking in detail, but the few words contained in the dispatch went to confirm the official view that the affair was nothing more than a naval reconnaissance.

A large number of callers are bringing forward candidates for the many plums within the gift of the president and Secretary Alger in the shape of appointments to grades above regimental in the army. General Lee and General Dodge spent a good part of the day in conference with the officials, giving color to the reports that they are among those selected for appointment as major generals.

The announcement that the State of Texas, laden with supplies for the reconcentrados is destined for Sagua, has led to the surmise that it is probably this port instead of Matanzas which has been selected for the landing place of the first attack of the United States.

Regarding the harmless growth that appear in the European papers, and threats to interfere to prevent the

United States forces from blockading the Philippines, it may be stated that this was fully expected. During the civil war there were a great many attempts on the part of European nations to disregard our blockade and threats of interference, all of which came to naught from the firm attitude assumed by the secretary of State. In the present case the conditions of the Cuban blockade are much more liberal towards the powers than ever imposed before.

PORTUGAL'S DECREE.

Belligerents Will Be Permitted to Make Short Stops.

Washington, April 30.—Viscount De Santo Thirso, the Portuguese minister, looked over the cable dispatch from Lisbon giving the substance of the neutrality decree gazetted there, and said it was evidently accurate and covered the entire subject. The viscount says that article 8, which permits belligerents to make a short stop at Portuguese ports probably will be better understood by saying that belligerents will not be permitted to make long stays at Portuguese ports. In this connection the minister drew attention to the privileges permitted when warships of both belligerent nations were in the same port.

In that case, if the warship of one power leaves port, the warship of the other power cannot leave in pursuit within 24 hours, that much time being allowed the departing ship to go on her way without molestation. Portugal has

LANDING OF MARINES.

been very insistent upon this particular rule, and notable instant of it occurred when the famous confederate privateer, Alabama, was at Lisbon during the civil war.

A United States ship entered Lisbon harbor while the Alabama was there, and the Alabama immediately withdrew. The United States ship apparently started in pursuit, whereupon the Portuguese batteries fired warning guns and were preparing to make armed resistance to the departure of the second warship before the first one had her full 24 hours start. It turned out that the northern ship had not intended to chase the Alabama, but was moving her buoys, so that trouble was averted. The same rule, allowing 24 hours start to warships of either country will be again observed in the present conflict between the United States and Spain.

MOVEMENT OF TROOPS.

More Regiments Ordered to Tampa From Chickamauga Camp.

Chickamauga National Park Ga., April 30.—The eight batteries in camp here ordered to Tampa left last night. The entire day was taken up yesterday in getting the men, horses and guns aboard the cars. Trains bearing these men and their equipments have been given the right of way and it is expected they will arrive at Tampa this morning.

The Twenty-fourth infantry and the Ninth cavalry are under orders to move and today the infantry regiment will break camp and by night they will be on their way to the coast. The cavalry will leave tomorrow.

DEWEY'S WAR FLEET

Sighted Near Manila, But Unable to Communicate With Insurgents.

MATANZAS BAY TORPEDOED.

Spanish Believe It Will Be Impossible For Americans to Effect a Landing on That Account—Said Germany Will Not Permit Bombarding of Manila—Other War News.

Hong Kong, April 30.—Reported from Manila American squadron sighted off Bolinao, north of Manila, but weather too stormy for the fleet to communicate with insurgents.

MADRID NEWS.

False Report as to the Grounding of the Montgomery.

Madrid, April 30.—In official circles it is not believed that the Americans can effect a landing on the shores of Matanzas bay as the bay is full of torpedoes.

The reports cabled from Washington respecting the movements of the American army and fleet are considered as intended to hoodwink the Spanish government. The latest dispatches from Havana say it was the American warship Montgomery which went ashore off the coast of Pinar del Rio and that she grounded on the rocks near Colonados. According to these dispatches three other warships succeeded in floating her, but the Montgomery is badly damaged. [The Montgomery arrived at Key West yesterday and has not been in Cuban waters.]

There is great rejoicing in Havana at what is described as "the American repulse at Matanzas." It is not believed that the United States warships will venture to attack Manila.

A great impression has been produced here by a rumor that the German government has issued a note declaring that it will not oppose the landing of troops in the Philippines but will not permit a bombardment, owing to the important German mercantile interests in all the towns of the islands. Germany's omission to declare neutrality is held to give color to this rumor.

General Weyer in the senate urged the government to take the offensive against America. He justifies his administration in Cuba.

WAS NO BOMBARDMENT.

Story Regarding the Cardenas Purely a Fake.

Key West, Fla., April 30.—The story of the bombardment of Cardenas by the ships of the fleet stationed there is false. The rumors suddenly developed from nowhere and thrived lustily, acquiring an elaborate finish of detail and ornamentation.

When the monitor Paritan steamed into port Captain Harrington, the commanding officer of the Cardenas fleet, gave the story its quietus by a firm declaration that there had been no bombardment of the Cardenas batteries, incidentally adding that there were no batteries there and only one or two insignificant gunboats which had given no sign of offense.

CONFIDENCE IN AMERICAN ARMS.

Lord Wolsey of the British Forces Think They Will Have a Walkover.

London, April 30.—A prominent Englishman, who believes in the justice of America's cause, and who is also of the opinion that the United States will certainly have a walkover, is Lord Wolsey, the commander-in-chief of the British forces. During a dinner party conversation, Lord Wolsey drew a parallel between Cuba and Crete, saying:

"While England interfered in Crete on moral grounds, the United States has both moral and material justification for intervention. I believe the quality of the American army and navy is so much superior to Spain's that the Americans will have no difficulty in defeating Spain's ships and land forces, which are their equals or superiors on paper only."

Declaration of Neutrality.

Buenos Ayres, April 30.—The Argentine Republic will make a declaration of neutrality, but may not make coal contraband of war. The Spanish torpedo cruiser Ternarrario is still here.

Manilla Impregnable.

Madrid, April 30.—The Voz Espanola of Manila describes port of Manila as impregnable. Says six other principal ports in the Philippines bristle with guns, chiefly Krupp.

SEALING SCHOONER DORIS.

She Recently Lost Most of Her Men, Who Were Blown Away in Gale.

Astoria, Ore., April 30.—The pilot boat, San Jose, reports having spoken the sealing schooner, Doris, of Van Couver. The Doris recently lost most of her men. While hunting they were blown away from the vessel and were unable to again reach her. The Doris had 330 skins and reported five other sealers now along the coast were doing equally well.

issued this evening for the removal to Tampa of the Twenty-fifth infantry and the Tenth cavalry and a semi-official rumor is current to the effect that the Second cavalry and the Seventh infantry will go early next week. None of these commands have been filled to war strength, very few enlistments having been made up to this time. The Sixteenth infantry, which arrived yesterday, was assigned to the first brigade, commanded by Colonel J. C. Bates.

Sixteenth Ohio Moves.

Toledo, O., April 30.—The Sixteenth regiment Ohio National Guard recruited to full strength, left for Columbus yesterday. All business was suspended. It was escorted to the depot by the police force, G. A. R. and leading civic societies while factory and steamer whistles sounded incessantly. The streets along the line of march were densely packed with people and the demonstration was the largest Toledo ever saw.

General Shafter's Staff Ordered to Florida.

New Orleans, April 30.—The first regiment left here last night for Tampa, waiting over for General Shafter's staff, who were also ordered to meet the commander in Florida. The impression among army men is that the first army corps sent into Cuba will be for the purpose of co-operating with the insurgents. Other regiments have not received orders to leave.

Kansas' Quota Reduced.

Topeka, Kan., April 30.—A communication from the secretary of war, received by Governor Leedy, reduces the Kansas quota 900 men from the number Governor Leedy expected to offer.

Texas Troops.

Austin, Tex., April 30.—Texas troops have received orders to move and began to assemble here yesterday. Today 4,200 men, infantry and cavalry, are encamped here.

Made His Mother Crazy.

Bellefontaine, O., April 30.—The venerable mother of Samuel Creviston has become insane over worrying about her son's untimely death, he dying from the effects of a blow delivered by George Farmer.

Nietheroy Disabled.

London, April 30.—A dispatch to The Daily Mail from Rio Janeiro says the departure of the United States dynamite cruiser Nietheroy has been delayed by a breakage in her machinery.

New Era in Medicine.

This tells of a discovery that alleviates suffering and prolongs life. It is inexpensive, effective. Medical science is revolutionized over this, one of the greatest achievements of modern times.

The fact that several dollars spent for the right medicine has effected a cure where a skilled and expensive physician aided by the latest and most ingenious instrument of science, had failed, is a matter of much importance.

Important, because it opens to downcast sufferers a new, inexpensive and sure avenue to the restoration of health and the full enjoyment of the pleasures of life.

Such was the experience of Mrs. Ada M. Herr, of 439 North Charlotte Street, Lancaster, Pa.

From a weak, nervous, desponding person, she was made a strong, active woman and a cheerful, helpful wife.

Her story is interesting. Mrs. Herr suffered terribly from female disorders. Her nerves became unstrung, cramps gripped her and caused the most intense pain.

So weak and physically demoralized was she, that the slightest labor wearied her and household duties were a burden.

The most alarming symptoms of her malady were the frequent fainting spells that afflicted her.

In the midst of her work, or in a conversation, dizziness would come upon her and she would fall prostrate in a swoon.

She consulted a reputable physician. He diagnosed her case and prescribed the usual remedies.

Instead of improving, she continued to grow worse; the ailment that was robbing her life of the joys of young womanhood became more pronounced.

It seemed impossible to correct or even to check the disorders.

"I had become greatly weakened," said Mrs. Herr, in telling her story to a reporter, "and the awful cramps and the frequency and nature of the fainting spells alarmed me beyond belief and shattered my system."

"I tried electric treatment; it failed, and I did not know where to turn for help."

"A friend told me how her mother had been greatly benefited by taking Dr. Williams' Pink Pills for Pale People."

"I had but little hope for success; but decided to give these pills a trial."

"I took two boxes and was much benefited. After taking six more boxes I was cured. Dr. Williams' Pink Pills for Pale People had done what all the previous treatment had failed to do."

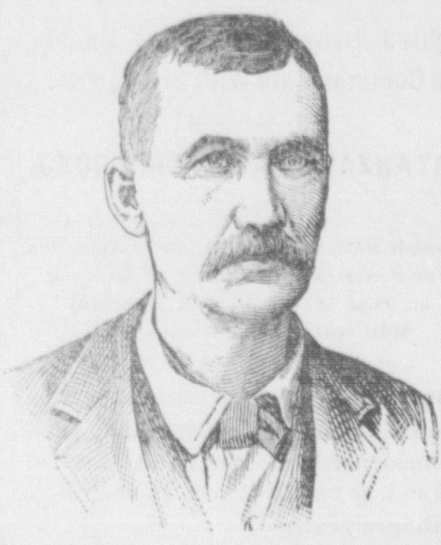

"I am fully restored to health now, and do things that I had hardly dared attempt before."

No discovery of modern times has proved so soon to women as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health to the exhausted woman when every effort of the physician proves unavailing.

These pills are recognized everywhere as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. Truly they are one of the greatest blessings ever bestowed upon mankind.

ABE THICKSTEN.

Abe Thicksten, the republican candidate for marshal, was born in Jennings county, near Vernon, December 20, 1841. He received his early schooling in the district schools of that county and later he attended the high school at Vernon under the teaching of Judge Jephtha D. New. He worked with his father on the farm until about 17 years old, when with his parents he went to Boone county, settling near

Lebanon. Here his father remained for two years, after which he came to Jackson county in 1864, settling near Hangman's Crossing, west of Seymour. Abe left home at the age of 18 years and began working on the farm for himself. In May, 1867 he enlisted in the army for service and was out until November, 1864, when he returned to his father's home in this county.

After returning from the war, he was a brakeman on the old O. & M. railroad for one year. For nine years he was employed by the Shields family, farming and handling stock. In 1875, he went to Vernon where he was employed for eight years in the plow works at that place. Returning here, he has been a resident of the county ever since. He has been on the police force for nearly six years, during which time he has discharged his duties courageously and without fear of any man.

The fact that only he and the night police are employed to look after law breakers in the city is sufficient evidence, when we consider the small amount of lawlessness here, to show that the police work has been well done. He will be the choice of the people on the 3d of May for marshal to succeed himself.

POLITICAL BREVITIES.

Since the present administration took charge of the affairs of the city the city debt has been reduced \$14,500.

The bonded debt of the city has been reduced at a lower rate of interest.

The tax levy has been reduced ten cents on the one hundred dollars.

The finances of the city were never in a better condition than now, and the credit of the city was never rated higher.

All the obligations of the city are promptly paid when due, and there is now a very substantial balance in the treasury.

During this time seven blocks of brick streets have been put down, which improvement has been of substantial and lasting benefit, adding to the beauty, comfort and convenience of our city.

MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it, so assists nature in the changeful place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

FRANK GROFF is still doing his own talking. The organs have nothing yet to say for him.

CHARLEY BURKART and some of his pushers held a conference over in the third ward last evening. The officiousness of Charley at this meeting is what was most emphatically impressed on the minds of those present.

The man from Iowa City is not quite so well known here as Thos. J. Clark and what he has to say of a derogatory nature will have little weight in this community along side the honorable and useful career of our genial city treasurer.

No man is more familiar with the needs of the second ward and can represent the interests of the people there better than Bern Shepard. He is centrally located in the ward, owns his own property and takes a positive interest in the welfare and progress of the city. He is energetic and successfully manages his own business. He is a public spirited man and is always ready to do his full share in whatever advances the interests of Seymour and her people.

JAMES O. STAPLES has read the signs of the times better than some of his colleagues, and he's trying to get in out of the wet. He concedes Arbuckle's defeat and no doubt hopes for that result, as Arbuckle would do all the legal and judicial work of the city in case of his election, and Jimmie would have very shallow and empty honor without the profit he covets. It would be well for Mr. Arbuckle to watch the movements of certain gentlemen who may be willing to see him go down and Jimmie go up. No charge for this suggestion as the voters have to rely on the REPUBLICAN to give them the facts.

No part of the city has had a more faithful and efficient servant than the citizens of the third ward have had in James DeGoyler. He has been diligent in the performance of all his duties on the various committees and prompt in looking after the needs of his people. The streets and alleys have been kept clean, well drained and in good repair during his term. He lives among those he represents, has his property, and his home is there, and he has the ability to understand public matters and the courage to do his duty. It would be a matter of general regret and a positive misfortune to the people of that ward if they should allow him to be defeated in the coming election.

The Seymour Democrat has made it a point to attack the railroads and their employes in this campaign. Dan Lester was beaten in the primary solely because he is an employee of the B. & O. S. W. Railway Company, through machine and boss methods. It is a sad state of affairs when an honest and industrious and sober man is denied the honors of civil life, solely because he works in some particular employment. Charles E. Miles was favorably spoken of as a man highly capable and well suited for councilman in the second ward, but the bosses said it would never do, and even though he had consented to serve, his fate would have been the same as Lester's. It is our belief that these men and others in like employment have honor and an honest purpose in life and can and will do their whole duty in every position. It has been the policy of the present city administration to deal fairly and justly with the railroads and all their interests and to respect their employes as other good citizens. No party or set of men can afford to fight any one of our valuable institutions and we hope that the citizens will manifest their disapproval of the course of the Democrat in this respect.

By experience and natural ability John A. Goodale is one of the best equipped men for councilman in Seymour. He never fails to respond to the calls of his people and to honestly and faithfully represent their interests. His services in the council have been of great value to the city as every one must admit. The voters of the first ward will show their appreciation of his work by reelecting him next Tuesday.

The career of A. W. Mills shows him to be a man of remarkable energy and business ability. He has succeeded in whatever line of work he has undertaken because of his ability and close application to business. He ranks with the best of our business men. He is fitted by experience as well as sound judgment to successfully care for large responsibilities. The people know these facts and will put him at the head of the affairs of the city, in which he takes so much pride, by electing him mayor next Tuesday.

GRAVEL ROAD ELECTION.

Light Vote Being Polled in the City Today.

As the REPUBLICAN goes to press the election for the Dudleytown and Seymour gravel road is in progress. A light vote is being polled all over the city. The report as we go to press shows the following vote cast: 1st precinct 62; 2d precinct 73; 3d precinct 63; 4th precinct 47; 5th precinct 67; 6th precinct 60; 7th precinct 70; 8th precinct 70; 9th precinct 42, total 554.

BOBBIE BINDER was given his start in politics when Keynote Souder made him one of his lieutenants in the campaign of 1896. In return Wesner has Bobbie's support in his ambition to be city attorney.

It was not enough for George Thompson to defeat Lou Bruning and William Railing in the primary. His ambition leads him to hope for something more substantial for himself. He would like to be street commissioner.

It is well understood that Mr. Wesner was active in the primary and exceedingly anxious to secure the nomination of George Huber for councilman in the first ward. He succeeded in his efforts, and Mr. Huber will show his appreciation for this valuable aid if elected to the council by voting for Fernando W., popularly known as "Keynote," for city attorney. There is said to be no constitutional obstacles in the way of this scheme, and other considerations such as capacity and legal accomplishments are not to be considered. All who believe that Wesner has not been duly appreciated and that he ought to have another office or two should vote for Huber for councilman next Tuesday.

As a member of the city council J. W. Bergdoll has been faithful to every duty. He has looked closely after the needs of his ward and has accomplished much for his constituents. A comparison of the condition of the streets and alleys and sidewalks in his ward now with what they were four years ago is proof enough for this assertion. He is a man of practical ideas and mature judgment and as an official looks closely to the interests of the people. It is not probable that he will be displaced by a young man who pleads no qualifications other than that he is a 16 to 1 democrat.

My Nellie's Sentiments.

A WOMAN'S WAY.

When I talk to her of fightin'—in case we has ter go

Whar the cruisers air a-cruisin' on the ocean fer the foe,

She throws her arms aroun' me, her eyes with tears air dim.

"Dear John, please tell the gov'ment that you can't swim."

When I tell her of they needs me I will have ter show my hand

An' help 'em on the water like I use ter on the land.

She 'pears ter think my chances on a cruiser 'ud be slim.

"Dear John, please tell the gov'ment that you jest can't swim."

Now ain't these women cur'ous? Fer she knows as well as me

I kin swim the widest river, an' 'cud hol' my own at sea.

But ever' time it's mentioned her eyes with tears air dim

"Dear John, please tell the gov'ment that you jest can't swim."

MY SENTIMENTS.

When beneath the blue skies arching

You behold our flag once more,

And you see the soldiers marching

To the scenes of bloody war,

When the drums are loudly sounding

And the shrill life rends the air,

When the horses, hoofs are pounding

You can bet I won't be there.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Register and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

UNITED STATES

SENATOR PRITCHARD

Mrs. Pritchard Got Entire Relief from Rheumatism by Use of Paine's Celery Compound

United States Senate,

WASHINGTON, D. C.

Washington, D. C. May 18/94

Wm. Richardson & Co. Burlington Vermont.

I find Paine's Celery Compound an excellent remedy for rheumatism. Both last winter & now Mrs. J. C. Pritchard 1820 I St. N. H.

Senator Pritchard of North Carolina became prominent in the co-operative movement in North Carolina, the success of which resulted in his election to the U. S. Senate to fill the term of the late Senator Z. B. Vance. He was re-elected to the Senate in 1887.

Mrs. Pritchard's testimonial to her faith in Paine's celery compound is reproduced above.

Below is a testimonial received from the wife of U. S. Senator Warren of Wyoming, whose distinguished services for the country's best farming interests are so well known.

"I was persuaded to try your Paine's celery compound in the early spring, when in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting, and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and can truthfully say that I am in almost perfect health again. If I ever find myself running down again, I shall certainly give it another trial, and will in the mean time recommend it to every one needing it.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky. for twelve years; he has sold hundreds of bottles of this remedy and all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by C. W. Milhous.

It is now time, if ever, to get health and strength. Nothing should now interfere with building up weakened nerves and purifying the blood.

Now is the time of year when rheumatism and neuralgia must be cured, when debility and nervousness must be checked when bad health must be mended—if one hopes ever to get well.

It is not that rheumatism, neuralgia, insomnia, and kidney troubles are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the early symptoms of disease.

Thousands of lives that are now fast wearing out would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the run-down, nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs; the holy sepulchers to which the pilgrimages are made, its palaces, is well worth week-end study, while many lesser cities are centers of peculiar interest. Thus Guanajuato, its catacombs; Zacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. The are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos a Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.
